PROFESSIONAL SUMMARY

Frontend and ERPNext (Frappe) Developer with 2+ years of experience building responsive React.js/TypeScript web applications and dashboards, now developing and customizing ERPNext solutions across CRM, Buying, Selling, Stock, Manufacturing, HR, and other modules using Python and the Frappe Framework. Skilled in DocTypes, workflows, REST APIs, reusable UI components, and application state management. Experience across startup and enterprise environments (Freshworks, Jarvis Labs AI, Lumel, Finstein).

TECHNICAL SKILLS

Languages: HTML5, CSS3, JavaScript (ES6+), TypeScript, Python

Frontend Development: React.js, Context API, Recharts, Tailwind CSS, Responsive Design, Component-based UI Architecture, REST API Integration

ERPNext / Frappe: DocTypes, Reports, Workflows, Client & Server Scripts, Print Formats, REST APIs, Multi-module Customization

Testing & QA: Manual Testing, Silk Test, Regression Testing, Security & Vulnerability Testing

Database & Tools: MySQL, PostgreSQL, MariaDB, Git, Bench CLI, Postman, VS Code, Linux CLI

AI-Assisted Development: Claude AI, Cursor, Codex, Antigravity

WORK EXPERIENCE

Frontend Developer / ERPNext Developer — Finstein

Dec 2025 – Present

- Developed and customized ERPNext solutions using Frappe Framework, Python, JavaScript, HTML, CSS, and MariaDB/MySQL across CRM, Buying, Selling, Stock, Manufacturing, HR, Projects, Support, Assets, and Quality modules.
- Built DocTypes, Reports, Workflows, Client/Server Scripts, Print Formats, and REST APIs to meet business requirements; developed a Tender Management application during an internal hackathon from user-flow designs.
- Debugged ERPNext functional/production issues (business logic, permissions, database queries, document lifecycles) and conducted security/vulnerability testing, using Git, Bench CLI, Postman, and AI-assisted tools (Claude AI, Cursor, Codex, Antigravity).

Frontend Developer — Lumel, Chennai

Mar 2024 – Jun 2025

- Developed responsive, reusable UI components using React.js, TypeScript, HTML5, CSS3, and Tailwind CSS across multiple application modules, improving UI consistency and maintainability.
- Built interactive dashboards and pricing filter components using Recharts and React Context API, improving data accessibility for internal users.

Frontend Developer Intern — Jarvis Labs AI, Coimbatore

Nov 2023 – Mar 2024

- Developed responsive web interfaces using React.js, TypeScript, JavaScript (ES6+), HTML5, CSS3, and Tailwind CSS, integrating REST APIs and JSON data with MySQL-backed services; performed manual/regression testing and debugging using Git, VS Code, and Chrome DevTools.

Frontend Developer Trainee — Freshworks, Chennai

Aug 2022 – Nov 2023

- Developed responsive, reusable frontend components for SaHI AI, an AI-powered document data extraction platform, using React.js, TypeScript, and Tailwind CSS.
- Built key document workflows — upload, processing, data extraction, and results visualization — with API integration and clean, reusable UI architecture for seamless data flow.

EDUCATION

B.Sc. Computer Science (In Progress) — University of Madras, 2025–2027 (Expected)

Frontend Development Training (1 year) — Freshworks Academy, 2022–2023
